## OUR JUNIOR CLASS

It is indeed a pleasure to recapitulate and summarize the many and varied accomplishments of our '52 junior class. If the merit of an organization is the measure of the efforts and achievements of its constituents, then the quality of our class is revealed in unmistakable terms. We have invaded many fields of endeavor and embarked on projects which have proved serviceable to the school. Among

such projects and perhaps the most important was the planning and engineering prerequisite to a successful prom. Various prom committees were organized and turned in a commendable performance. Our class has advocated a slate of special projects which we believe will serve to supplement the traditional progressiveness of Cradock High School.
